August 2009	
Products Utilized	
<ul style="list-style-type: none"> ➤ Stonclad GS coving mortar ➤ Stonproof CT5 crack treatment ➤ Stonchem 600 series linings 	

THE STONHARD DIFFERENCE

Stonhard is the world-leading manufacturer and installer of high performance polymer floor and lining systems designed for tough commercial and industrial environments. We deliver long lasting durable products to satisfy the most demanding design specifications and work with you from start to finish. You are protected with a single source warranty on both product and workmanship. Known around the world for excellence, the Stonhard name is synonymous with quality, performance and unmatched service.

All existing coatings were removed by low pressure water blasting. This ensured an open textured finish to the concrete substrate and provided optimum adhesion for the Stonchem lining system.

Stonclad GS mortar fillets were installed at junctions of walls/ floors to eliminate sharp corners. Stonproof crack treatment was applied to slab joints to provide strategic strengthening to the Stonchem lining system.

Completed project.
Stonchem 600 series lining system was the clients choice to provide long term chemical and abrasion resistance.
